Innovative Cordless Tube Cutter

Patented, self-centering, auto size-adjusting, chipless tube cutter used for round tube material

FEATURES:

- Automatic quick adjustment to any tube size in the designed range (3/8" ID to 1-1/8"OD). Small ID can be provided as option.
- Self-centering drive mechanism for vibration free cutting.
- Precise cutting feed fully adjustable for different materials and levels of hardness (from plastic to titanium).
- Horseshoe type head for easy tube access and removal on stationary tube.
- Compact size for easy access to areas of limited clearances.
- Multi-position battery for weight balance.
- Clear glass openings for "on-mark" cutting with inside LED light.
- Strong and simple drive mechanism for long life.
- Chip-less cutting wheel with removable screw pin for easy change.
- Effortless tube cutting with auto-feed, auto-stop and reversing features.
- Accessories for tube cleaning, reaming and de-burring included in a professionally arranged BMC.

INCLUDED IN THIS KIT:

JBCTC-1 Tube cutter
Two 18V-2.0Ah rechargeable batteries
Rapid battery charger
Extra cutting blade
Three tube cleaning brushes (1/2", 3/4" and 1")
